## MANAGEMENT'S RESPONSIBILITY FOR FINANCIAL REPORTING

The accompanying unaudited interim condensed consolidated financial statements of Tanzanian Gold Corporation are the responsibility of the management and Board of Directors of the Company.

The unaudited interim condensed consolidated financial statements have been prepared by management, on behalf of the Board of Directors, in accordance with the accounting policies disclosed in the notes to the unaudited interim condensed consolidated financial statements. Where necessary, management has made informed judgments and estimates in accounting for transactions which were not complete at the statement of financial position date. In the opinion of management, the interim condensed consolidated financial statements have been prepared within acceptable limits of materiality and are in accordance with International Accounting Standard 34 Interim Financial Reporting using accounting policies consistent with International Financial Reporting Standards appropriate in the circumstances.

Management has established systems of internal control over the financial reporting process, which are designed to provide reasonable assurance that relevant and reliable financial information is produced.

The Board of Directors is responsible for reviewing and approving the unaudited interim condensed consolidated financial statements together with other financial information of the Company and for ensuring that management fulfills its financial reporting responsibilities. An Audit Committee assists the Board of Directors in fulfilling this responsibility. The Audit Committee meets with management to review the financial reporting process and the unaudited interim condensed consolidated financial statements together with other financial information of the Company. The Audit Committee reports its findings to the Board of Directors for its consideration in approving the unaudited interim condensed consolidated financial statements together with other financial information of the Company for issuance to the shareholders.

Management recognizes its responsibility for conducting the Company's affairs in compliance with established financial standards, and applicable laws and regulations, and for maintaining proper standards of conduct for its activities.

**1. Nature of Operations and Going Concern**

The Company was originally incorporated under the corporate name “424547 Alberta Ltd.” in the Province of Alberta on July 5, 1990, under the *Business Corporations Act* (Alberta). The name of the Company was changed to Tanzanian Gold Corporation on April 11, 2019 (“*Tanzanian*” or the “*Company*”). The address of the Company’s registered office is 400 3<sup>rd</sup> Avenue SW, Suite 3700, Calgary, Alberta, T2P 4H2, Canada. The Company’s principal business activity is in the exploration and development of mineral property interests. The Company’s mineral properties are located in United Republic of Tanzania (“Tanzania”).

The Company is in the process of exploring, developing, and evaluating its mineral properties. The business of exploring and mining for minerals involves a high degree of risk. The underlying value of the mineral properties is dependent upon the existence and economic recovery of mineral resources and reserves, the ability to raise long-term financing to complete the development of the properties, government policies and regulations, and upon future profitable production or, alternatively, upon the Company’s ability to dispose of its interest on an advantageous basis; all of which are uncertain.

The amounts shown as mineral properties and deferred exploration expenditures represent costs incurred to date, less amounts amortized and/or written off, and do not necessarily represent present or future values. The underlying value of the mineral properties is entirely dependent on the existence of economically recoverable reserves, securing and maintaining title and beneficial interest, the ability of the Company to obtain the necessary financing to complete development, and future profitable production.

The Company reviews its going concern status, via comparisons to budgets, cash flow forecasts, and access to further financing. At the balance sheet date, the Company had \$27.7 million of cash. In common with many exploration companies, the Company raises financing for its exploration, development and appraisal activities in discrete tranches to finance its activities for limited periods only. The Company has identified that further funding may be required during 2021 for working capital purposes, and to finance the Company’s in-fill drilling, exploration program and a Sulphide Mineral Reserve Feasibility Study. These conditions may cast doubt on the Company’s ability to continue as a going concern.

These unaudited interim condensed consolidated financial statements do not give effect to any adjustment which would be necessary should the Company be unable to continue as a going concern and, therefore, be required to realize its assets and discharge its liabilities in other than the normal course of business and at amounts different from those reflected in the interim condensed consolidated financial statements.

## **2. Basis of Preparation**

### **2.1 Statement of compliance**

These condensed consolidated interim financial statements have been prepared in accordance with IAS 34 *Interim Financial Reporting*. They do not include all the information required for a complete set of financial statements prepared in accordance with International Financial Reporting Standards (IFRSs). As such, they must be read in conjunction with the annual audited consolidated financial statements for the period ended August 31, 2020 and the notes thereto. However, selected notes are included that are significant to understanding the Company's financial position and performance since the last annual consolidated financial statements for the year ended August 31, 2020.

These unaudited interim condensed consolidated financial statements were approved and authorized by the Board of Directors of the Company on April 13, 2021.

### **2.2 Basis of presentation**

The interim condensed consolidated financial statements of the Company as at and for the three and six month periods ended February 28, 2021 and February 29, 2020 comprise the activities and balances of the Company and its subsidiaries (together referred to as the "Company" or "Group").

These unaudited interim condensed consolidated financial statements have been prepared on the basis of accounting policies and methods of computation consistent with those applied in the Company's August 31, 2020 annual financial statements.

### **2.3 COVID-19**

At the end of 2019, a novel strain of coronavirus ("COVID-19") was reported in China. The COVID-19 outbreak has developed rapidly in 2020, with a significant number of infections around the world. On March 11, 2020, it was labelled a pandemic by the World Health Organization. During the first quarter of 2020, attempts at containment of COVID-19 have resulted in decreased economic activity, which has adversely affected the broader global economy. The rapid development and fluidity of the situation precludes any prediction as to the ultimate impact of COVID-19; however, the Company seeks to obtain the best possible information to enable the assessment of the risks involved, and implement appropriate measures to respond. The Company has taken a number of measures to safeguard the health of its employees and the local communities where it operates.

**3. Mineral Properties and Deferred Exploration (continued)**

**Buckreef Gold Project:**

The joint venture agreement contains a penalty clause related to the original commissioning date for the plant. The clause only became effective in the event the plant was not brought into commercial production before a specified future date. Subsequent to February 28, 2021, the Company renegotiated the delay penalty of USD \$0.75 million for the third extension year and agreed to pay in 6 monthly installments of \$0.125 million with retrospective effect from January to June 2021. Upon payment of the final installment, Stamico shall have no further claim related to delay penalties. As at February 28, 2021, the Company has accrued USD \$0.75 million.

**Kigosi and Itetemia:**

During the three months ended February 28, 2021, the Company withdrew its appeals related to the cancellation of the Kigosi and Itetemia Mining Licenses and have reset the relationship with the Government of the United Republic of Tanzania. Along with the Company's joint venture partner Stamico, the Company is committed to building a positive partnership with the Government of Tanzania to help progress the Buckreef Gold Project and the country's mining sector.

**Activity during the six month period ended February 28, 2021:**

On February 11, 2021, the Company completed the sale of 32,923,078 common shares together with warrants to purchase 16,461,539 common shares for \$27.2 million (USD \$21.4 million). The common shares and warrants were issued at USD \$0.65 for each common share and a purchase warrant with the right of each whole warrant to purchase one common share at USD \$0.80 for a period of five years from the issue date. The Company also issued 1,152,307 broker warrants with the same terms and incurred commission and other costs of \$2.3 million out of which \$0.8 million was allocated to the warrants issued in the unit and expensed in the statement of comprehensive loss. The warrants issued with the common shares are classified as a liability (Note 20). The broker warrants are considered an equity-settled share based payment transaction and are measured at their fair value and classified as equity.

On December 23, 2020, the Company completed the sale of 5,554,588 common shares together with warrants to purchase 2,777,268 common shares for \$3.8 million (USD \$3.0 million) in the aggregate. The common shares and warrants were issued at USD \$0.54 for each common share and a one-half purchase warrant with the right of each whole warrant to purchase one common share at USD \$1.50 for a period of three years from the issue date. The warrants are classified as equity.

**Omnibus Equity Incentive Plan**

Effective June 26, 2019, the Company adopted the Omnibus Equity Incentive Plan dated June 26, 2019 (the "Plan"), which Omnibus Plan was approved by the shareholders at a meeting held on August 16, 2019.

The purposes of the Omnibus Plan are: (a) to advance the interests of the Company by enhancing the ability of the Company and its subsidiaries to attract, motivate and retain employees, officers, directors, and consultants, which either of directors or officers may be consultants or employees; (b) to reward such persons for their sustained contributions; and (c) to encourage such persons to take into account the long-term corporate performance of the Company.

The Omnibus Plan provides for the grant of options, restricted share units, deferred share units and performance share units (collectively, the "Omnibus Plan Awards"), all of which are described in detail in the Form 20-F Annual Report for the year ended August 31, 2020.

The Omnibus Plan provides for the grant of other share-based awards to participants ("Other Share-Based Awards"), which awards would include the grant of common shares. All Other Share-Based Awards will be granted by an agreement evidencing the Other Share-Based Awards granted under the Omnibus Plan.

**8. Related party transactions**

Related parties include the Board of Directors and officers, extended relative and enterprises that are controlled by these individuals as well as certain consultants performing similar functions.

Tanzanian Gold Corporation entered into the following transactions with related parties:

<b>Six Months Ended</b>	<b>February 28, 2021</b>	<b>February 29, 2020</b>
Consulting <sup>1,2</sup>	\$ 49	\$ 52

<sup>1.</sup> During the six month period ended February 28, 2021, consulting and website/data back-up services were provided by Giancarlo Volo, the Company's Director of Operations – Africa, and companies related to him (2021 - \$13, 2020 - \$12).

<sup>2.</sup> During the six month period ended February 28, 2021, consulting services were provided by a company controlled by a Ulli Rath, former Director of the Company (2021 - \$36, 2020 - \$40).

As of February 28, 2021, included in trade and other payables is \$1.4 million (August 31, 2020 - \$1.1 million) due to directors with no specific terms of repayment.

**9. Financial Instruments**

**Fair Value of Financial Instruments**

Convertible debentures and derivative warrant liabilities are classified as fair value through profit and loss. Trade and other payables, leases payable are classified as other financial liabilities, which are measured at amortized cost. Trade and Other Receivables are measured at amortized cost.

The carrying value of the Company's cash, other receivables, trade and other payables approximate their fair value due to the relatively short-term nature of these instruments.

Fair value estimates are made at a specific point in time, based on relevant market information and information about financial instruments. These estimates are subject to and involve uncertainties and matters of significant judgment, therefore cannot be determined with precision. Changes in assumptions could significantly affect the estimates.

The Company classifies its financial instruments carried at fair value according to a three-level hierarchy that reflects the significance of the inputs used in making the fair value measurements. The three levels of fair value hierarchy are as follows:

- Level 1 – Unadjusted quoted prices in active markets for identical assets or liabilities;

**Tanzanian Gold Corporation**  
**Notes to the Unaudited Interim Condensed Consolidated Financial Statements**  
**For the Three and Six Month Periods Ended February 28, 2021 and February 29, 2020**  
**(Expressed in Thousands of Canadian dollars)**

---

- Level 2 - Inputs other than quoted prices that are observable for assets and liabilities, either directly or indirectly;
- Level 3 – Inputs for assets or liabilities that are not based on observable market data.

As of February 28, 2021 and August 31, 2020, cash is recorded at fair value under level 1 within the fair value hierarchy, convertible debentures (Note 19) are classified as Level 3 within the fair value hierarchy, and derivative warrant liabilities (Note 20) are classified as level 3.

The fair value of the convertible debentures at initial recognition and at year-end has been calculated using a binomial lattice methodology. This methodology determined the total fair value of the instruments by maximizing the economic benefits to a market participant by comparing the conversion value and hold value over the term of the instruments.

**9. Financial Instruments (continued)**

The following table shows the valuation techniques used in measuring Level 3 fair values for derivative warrant liabilities and convertible debentures, as well as the significant unobservable inputs used.

Type	Valuation Technique	Key Inputs	Inter-relationship between significant inputs and fair value measurement
Derivative warrant liabilities	The fair value of the warrant liabilities at the quarter-end has been calculated using a Black-Scholes pricing model combined with a discounted cash flow methodology.	<p><i>Key observable inputs</i></p> <ul style="list-style-type: none"> <li>• Share price (February 28, 2021: USD \$0.70, August 31, 2020: USD \$0.835)</li> <li>• Risk-free interest rate (February 28, 2021: 0.21% to 0.74%, August 31, 2020: 0.15%)</li> <li>• Dividend yield (February 28, 2021: 0%, August 31, 2020: 0%)</li> </ul> <p><i>Key unobservable inputs</i></p> <ul style="list-style-type: none"> <li>• Expected volatility (February 28, 2021: 62% to 63%, August 31, 2020: 51%)</li> </ul>	<p>The estimated fair value would increase (decrease) if:</p> <ul style="list-style-type: none"> <li>• The share price was higher (lower)</li> <li>• The risk-free interest rate was higher (lower)</li> <li>• The dividend yield was lower (higher)</li> <li>• The expected volatility factor was higher (lower)</li> <li>• The credit spread was lower (higher)</li> </ul>
Convertible debentures	The fair value of the convertible debt during the period was calculated using a binomial lattice methodology.	<p><i>Key observable inputs*</i></p> <ul style="list-style-type: none"> <li>• Share price (February 28, 2021: USD \$0.623 to USD \$0.828, August 31, 2020: USD \$ 0.835)</li> <li>• Risk-free interest rate (February 28, 2021: 0.10% to 0.16%, August 31, 2020: 0.13% to 0.15%)</li> <li>• Dividend yield (February 28, 2021: 0%, August 31, 2020: 0%)</li> </ul> <p><i>Key unobservable inputs*</i></p> <ul style="list-style-type: none"> <li>• Discount for lack of marketability (DLOM) (February 28, 2021: 6%-15%, August 31, 2020: 20%-21%)</li> </ul>	<p>The estimated fair value would increase (decrease) if:</p> <ul style="list-style-type: none"> <li>• The share price was higher (lower)</li> <li>• The risk-free interest rate was higher (lower)</li> <li>• The dividend yield was lower (higher)</li> <li>• The discount for lack of marketability was lower (higher)</li> </ul>

\*The range provided for the period ended February 28, 2021 refers to the range used for each assumption for the fair value at the date of the conversions during the period as the balance is nil at period end.

**Sensitivity Analysis**

For the fair values of derivative warrant liabilities, reasonably possible changes to expected volatility, the significant unobservable input, holding other inputs constant would have the following effects:

Derivative Warrant Liabilities	February 28, 2021	
Comprehensive Loss	Increase	Decrease
Expected volatility (20% movement vs. the model input)	\$ (2,040)	\$ 2,314

## 9. Financial Instruments (continued)

A summary of the Company's risk exposures as they relate to financial instruments are reflected below:

### ***Credit Risk***

Credit risk is the risk of an unexpected loss if a third party to a financial instrument fails to meet its contractual obligations. The Company is subject to credit risk on the cash balances at the bank and accounts and other receivables and the carrying value of those accounts represent the Company's maximum exposure to credit risk. The Company's cash and short-term bank investments are with Schedule 1 banks or equivalents. The amounts receivable consists primarily of amounts due from government taxation authorities. The Company has not recorded an impairment or allowance for credit risk as at February 28, 2021, or August 31, 2020.

### ***Interest Rate Risk***

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rate. The Company's bank accounts earn interest income at variable rates. The Company's future interest income is exposed to changes in short-term rates. As at February 28, 2021, a 1% increase/decrease in interest rates would decrease/increase net loss for the period by approximately \$0.3 million (2020 - \$0.04 million).

### ***Liquidity Risk***

The Company's approach to managing liquidity risk is to ensure that it will have sufficient liquidity to meet liabilities when due. As at February 28, 2021, the Company had current assets of \$30.1 million (August 31, 2020 - \$7.1 million) and current liabilities of \$12.1 million (August 31, 2020 - \$13.8 million). Current liabilities include \$6.8 million (non-cash) in derivative liabilities which will only be settled by issuing equity of the Company. Current working capital of the Company is \$18.0 million (August 31, 2020 - \$6.8 million deficiency). The Company has identified that further funding may be required during 2021 for working capital purposes, and to finance the Company's in-fill drilling, exploration program and a Feasibility Study based on the (Sulphide) Mineral Reserves.

### ***Foreign Currency Risk***

The Company is exposed to the financial risk related to the fluctuation of foreign exchange rates. The Company has offices in Canada, USA, and Tanzania, but holds cash mainly in Canadian and United States currencies. A significant change in the currency exchange rates between the Canadian dollar relative to US dollar and Tanzanian shillings could have an effect on the Company's results of operations, financial position, or cash flows. At February 28, 2021, the Company had no hedging agreements in place with respect to foreign exchange rates. As a majority of the transactions of the Company are denominated in US and Tanzanian Shilling currencies, a 10% movement in the foreign exchange rate will have an impact of approximate \$2.2 million on the statements of comprehensive loss.

**10. Amounts receivable**

The Company's amounts receivable arise from two main sources: receivables due from related parties, harmonized services tax ("HST") and value added tax ("VAT") receivable from government taxation authorities. These are broken down as follows:

	February 28, 2021	August 31, 2020
Receivable from related parties	\$ -	\$ 63
HST and VAT receivable	862	651
Other	59	-
<b>Amounts Receivable</b>	<b>\$ 921</b>	<b>\$ 714</b>

Below is an aged analysis of the Company's amounts receivable:

	February 28, 2021	August 31, 2020
Less than 1 month	\$ 91	\$ 127
1 to 3 months	111	101
Over 3 months	719	486
<b>Total Amounts Receivable</b>	<b>\$ 921</b>	<b>\$ 714</b>

At February 28, 2021, the Company anticipates full recovery of these amounts and therefore no impairment has been recorded against these receivables. The credit risk on the receivables has been further discussed in Note 9.

The Company holds no collateral for any receivable amounts outstanding as at February 28, 2021.

**11. Prepaid and other assets**

	February 28, 2021	August 31, 2020
Insurance	\$ -	\$ 26
Listing fees	99	40
Legal retainers and other	78	35

**12. Trade, other payables and accrued liabilities**

Trade and other payables of the Company are principally comprised of amounts outstanding for trade purchases relating to exploration activities and payroll liabilities. The usual credit period taken for trade purchases is between 30 to 90 days.

The following is an aged analysis of the trade, other payables and accrued liabilities:

	February 28, 2021	August 31, 2020
Less than 1 month	\$ 1,649	\$ 3,073
1 to 3 months	766	677
Over 3 months <sup>(1)</sup>	2,836	2,714
<b>Total Trade, Other Payables and Accrued Liabilities</b>	<b>\$ 5,251</b>	<b>\$ 6,464</b>

<sup>(1)</sup> Includes amounts due to directors and disputed legal fees.

**13. Inventory**

Inventory consists of stockpiled ore, work in progress and supplies consumed during the course of exploration development and operations. Cost represents the delivered price of the item. The following is a breakdown of items in inventory:

	February 28, 2021	August 31, 2020
Stockpiled ore and work in progress	\$ 1,243	\$ 930
Supplies	51	18
<b>Total Inventory</b>	<b>\$ 1,294</b>	<b>\$ 948</b>

**14. Cash**

As at February 28, 2021, cash totalled \$27.7 million (August 31, 2020 - \$5.3 million), consisting of cash on deposit with banks in general minimum interest bearing accounts.

---

**15. Segmented information**

**Operating Segments**

At February 28, 2021 the Company's operations comprise of a single reporting operating segment engaged in mineral exploration and development in Tanzania. The Company's corporate division only earns interest revenue that is considered incidental to the activities of the Company and therefore does not meet the definition of an operating segment as defined in IFRS 8 '*Operating Segments*'. As the operations comprise a single reporting segment, amounts disclosed in the interim condensed consolidated financial statements also represent operating segment amounts.

An operating segment is defined as a component of the Company:

- that engages in business activities from which it may earn revenues and incur expenses;
- whose operating results are reviewed regularly by the entity's chief operating decision maker; and
- for which discrete financial information is available.

**Geographic Segments**

The Company is in the business of mineral exploration and production in the country of Tanzania. Information concerning the Company's geographic locations is as follows:

	<b>As at February 28, 2021</b>	As at August 31, 2020
Identifiable assets		
Canada	\$ 27,918	\$ 5,206
Tanzania	47,534	44,604

---

**16. Commitments and Contingencies**

**Commitments:**

In order to maintain existing site mining and exploration licenses, the Company is required to pay annual license fees. With the exception of the Buckreef mining licenses, the Company had not paid certain of its annual license fees since October 2014 and was in arrears. Subsequent to February 28, 2021 the Company confirmed amounts in arrears with the Mining Commission and paid \$0.3 million to settle all amounts owing.

As at February 28, 2021 these licenses remained in good standing and an accrual of \$0.4 million (August 31, 2020 - \$0.3 million) had been recorded. Subsequent to February 28, 2021 the Company has no further amounts in arrears related to license fees.

**Contingencies:**

Due to the size, complexity and nature of the Company's operations, various legal, tax, environmental and regulatory matters are outstanding from time to time. By their nature, contingencies will only be resolved when one or more future events occur or fail to occur. The assessment of contingencies inherently involves the exercise of significant judgment and estimates of the outcome of future events.

**17. Asset Retirement Obligation**

The Company's asset retirement obligation relates to the cost of removing and restoring the Buckreef Project in Tanzania. Significant reclamation and closure activities include land rehabilitation, demolition of buildings and mine facilities, ongoing care and maintenance and other costs. This estimate depends on the development of an environmentally acceptable mine closure plan.

A reconciliation for asset retirement obligations is as follows:

	February 28, 2021	August 31, 2020
Balance, beginning of period/year	\$ 3,500	\$ 737
Increase in estimate for asset retirement obligation	-	2,754
Accretion expense	88	9
Foreign exchange	(78)	-
Balance, end of period/year	\$ 3,510	\$ 3,500

The mine closure provision liability is based upon the following estimates and assumptions:

- a) Total undiscounted amount of future retirement costs was estimated to be USD \$3.6 million.
- b) Risk-free rate at 5%.
- c) Expected timing of cash outflows required to settle the obligation is for the full amount to be paid in 18 years.
- d) Inflation over the period is estimated to be 3.3% per annum.

**18. Non-Controlling Interest**

The changes to the non-controlling interest for the six month periods ended February 28, 2021 and year ended August 31, 2020 are as follows:

<b>Period ended</b>	<b>February 28, 2021</b>	<b>August 31, 2020</b>
Balance at beginning of period/year	\$ (362)	\$ 582
Non-controlling interest's 45% share of Buckreef's comprehensive income (loss)	(928)	(944)
Balance at end of period/year	\$ (1,290)	\$ (362)

The following is summarized financial information for Buckreef:

	<b>February 28, 2021</b>	<b>August 31, 2020</b>
Current assets	\$ 1,891	\$ 1,356
Long term assets	\$ 32,400	\$ 30,337
Current liabilities	\$ 5	\$ 5
Asset retirement obligation	\$ (3,510)	\$ (3,500)
Advances from parent	\$ (34,117)	\$ (31,023)
Comprehensive loss for the period/year	\$ (2,063)	\$ (2,096)

**19. Convertible debentures**

During the year ended August 31, 2020, the Company entered into a securities purchase agreement (the "Agreement") with two institutional accredited investors (the "Debenture Holders") to issue up to USD \$14.0 million in convertible debentures consisting of USD \$7.0 million in Tranche A Convertible Debentures ("Tranche A") and up to USD \$7.0 million in Tranche B Convertible Debentures ("Tranche B", together with the Tranche A, the "Convertible Debentures").

Repayment of the Convertible Debentures is guaranteed by the Company's subsidiary, Tanzania American International Development Corporation 2000 Limited pursuant to a global guarantee agreement.

**Tranche A**

Each of the Tranche A Debentures bears no interest and has a maturity date of eighteen months, provided that in case of an event of default, the Tranche A Debentures may become immediately due and payable.

During the year ended August 31, 2020, the Company closed on the first and second issuances under Tranche A for a total of USD \$6.0 million. The conversion price is calculated at the lower of i) a fixed conversion price (first issuance - USD \$1.2125, second issuance - \$1.2029); or ii) 93% of the average of the two lowest daily VWAPs during the 10 consecutive trading days immediately before the conversion date, all of which is subject to a floor of \$0.20.

During the six-month period ended February 28, 2021, the Company closed on the third issuance of convertible debentures under Tranche A for a total of USD \$1.0 million. The conversion price is the same as the first two issuances, with the exception of the fixed conversion price, which is \$1.1554. With this issuance, Tranche A was fully accessed.

**19. Convertible debentures (continued)**

Implementation fees of 3.95% are to be paid at the closing of each issuance. In connection with the issuance during the six-month period ended February 28, 2021, transactions costs amounting to \$0.1 million were paid and expensed.

Initial recognition of the issuances that have closed up to February 28, 2021 are as follows:

Issued	Tranche	Principal (CAD)	Maturity Date	Interest Rate	Fair Value (CAD)
July 27, 2020	Tranche A	\$ 5,357	January 27, 2022	0%	\$ 4,592
August 20, 2020	Tranche A	2,639	February 20, 2022	0%	2,264
September 1, 2020	Tranche A	1,306	March 1, 2022	0%	1,194
<b>Total</b>		<b>\$ 9,302</b>			<b>\$ 8,050</b>

The difference of CAD \$1.1 million between the principal and the fair value of the first two issuances is attributable to the fair value of the Warrant Shares that were issued as part of the overall arrangement (Note 20).

The day one gain of \$0.1 million under the third issuance has been recognized in the consolidated statement of loss.

During the six month period ended February 28, 2021 USD \$7.0 million of Tranche A Convertible Debentures, representing the entire outstanding balance, were converted and retired resulting in the issuance of 12,150,447 common shares of the Company.

**The balance of the convertible debentures (level 3) is as follows:**

	<b>February 28, 2021</b>
Balance at August 31, 2020	<b>\$ 6,647</b>
Fair value of third issuance	<b>1,194</b>
Day one gain on third issuance	<b>112</b>
Change in fair value	<b>1,151</b>
Converted during the period	<b>(8,959)</b>
Foreign exchange	<b>(145)</b>
<b>Balance at February 28, 2021</b>	<b>\$ -</b>

There was no change in fair value due to changes in own credit risk during the period.

**19. Convertible debentures (continued)**

Significant assumptions used in determining the fair value of the convertible debentures are as follows:

	February 28, 2021*	August 31, 2020
Share price (in USD)	\$ 0.62 to 0.83	\$ 0.84
Risk-free interest rate	0.10%-0.15%	0.13%-0.14%
Discount for lack of marketability	6%-15%	21%
Remaining term (in years)	0.81-1.37	1.41-1.97

\*The range provided for the period ended February 28, 2021 refers to the range used for each assumption for the fair value at the date of the conversions during the period as the balance is nil at period end.

The fair value is a level 3 fair value estimate given the discount for lack of marketability assumption is not an observable input.

**20. Derivative warrant liabilities**

**Private Placement Warrants:**

During the six-month period ended February 28, 2021, the Company issued warrants for the Company's common shares pursuant to a financing in December, 2020 and February 2021 (Note 5).

The holders of these warrants may elect to settle the warrants in cash if the underlying security (i.e., the common shares) are not subject to an effective registration statement at the time the holder wishes to exercise them. A contract that may be settled by a single net payment (generally referred to as net cash settled or net equity settled) is a financial liability and not an equity instrument.

No warrants were exercised during the period.

**The balance of the derivative warrant liabilities (level 3) is as follows:**

	February 28, 2021
Balance at August 31, 2020	\$ 720
Warrants issued February 11, 2021 (Note 5)	9,933
Fair value adjustment	(3,829)
Balance at February 28, 2021	\$ 6,824

Significant assumptions used in determining the fair value of the derivative warrant liabilities are as follows:

	February 28, 2021	August 31, 2020
Share price (in USD)	\$ 0.70	\$ 0.84
Risk-free interest rate	0.18% - 0.74%	0.15%
Dividend yield	0%	0%
Expected volatility	66% - 63%	51%
Remaining term (in years)	2.4 - 4.9	2.90

The fair value is classified as level 3 as expected volatility is determined using historical volatility, and is therefore not an observable input.
